

APPOINTMENT PREP GUIDE

THE CURL LOFT

HAIR

Come with your hair down, 100% dry, and styled with the products you use to best enhance your natural curls. Please avoid bobby pins, ponytails, headbands, hats, clips, or anything that will cause tension and alter your natural curl pattern. It's not necessary to wash your hair right before the appointment, but I do ask that it be clean and styled within the last 48 hours. Please come to your appointment with inspiration pictures ready for us to look at together during your consultation.

We would love to take some content of your new do. If you'd rather not be photographed, just give me a heads-up! I totally understand and want to make sure you feel comfortable. Follow me on instagram at @bombshellxbyxdanielle to see some amazing transformations!

PICS

EVAL

All new color clients, or existing color clients wanting a look that is dramatically different from what we have done in the past, please give me a heads up. Leave a note while booking your appointment and send a picture of your hair currently, as well as a goal photo, so I can ensure the appropriate amount of time is allotted for your appointment. You can text pictures to 762-328-0954
